Grout Mixing and Pumping Equipment

MP-BT10G

FULLY ELECTRONIC CONTROL

OPTIONAL WIRELESS REMOTE

AUTO-FILL TANK VALVE

MP-BT10G

Richway's MP-BT10G is designed to mix and pump a variety of cementitious materials and grouts. The rugged digital control gives you consistent performance to batch and the #8 progressive cavity pump will deliver the material smoothly to the end of the hose with up to 250 psi pressure to handle all your demanding jobs.

APPLICATIONS

- Slab Jacking
- Floor Underlayments
- Under Sealing
- Cellular Concrete
- Soil Stabilization

FEATURES

- Fully Electronic Control
- Automated, Consistent Water Batching
- Productivity Tracking, including Counter and Batch Timers
- Optional Wireless Remote
- Mix and Pump up to 8 yd³/hr
